#### Boulder Municipal Airport announces new contact information

The Boulder Municipal Airport has new phone numbers and a Web page for the public. The new phone number for the Boulder Municipal Airport Manager is (303) 441-3108.

The Airport Noise Abatement phone line number is now (303) 441-3267. This number can be called to report aircraft noise observations. The airport Web page is also available at [www.ci.boulder.co.us/airport](http://www.ci.boulder.co.us/airport) under "Noise Abatement" for the public to submit aircraft noise observations.

The new phone numbers and Web page will improve airport documentation and should provide information for quarterly reporting to track and measure the noise abatement program progress. This is one of the early action items resulting from the Airport Master Plan Update public input.

The Airport Master Plan Update continues and is expected to be completed in spring 2005. More information can be found on the Web page listed above.
